Investor's Insights – January 2025, 20th Edition

Dear Valued Shareholders,

Welcome to the issue of our monthly newsletter, "Investor Insights," from Titan Intech Limited. Delivered directly to your inbox, this digest will keep you updated on the latest developments and trends within our innovative technology landscape.

January 2025 Highlights:

1) Establishment of Experience center:

We are proud to announce that we have established an experience center in Hyderabad dedicated to LED and home theater solutions. Our state-of-the-art facility offers customers the opportunity to immerse themselves in the latest innovations and experience top-tier audio visual technology first-hand. With overwhelming positive feedback from our first location, we are excited to share our vision and plan to expand by opening more experience centers across India. Each center will provide personalized consultations, demonstrations, and a unique environment to explore and enjoy the advancements in home entertainment.

Our experience center is designed to provide a comprehensive understanding of our products through personalized consultations and hands-on demonstrations. Visitors can explore a variety of setups and configurations, gaining insights into how to optimize their home entertainment systems. The overwhelmingly positive feedback from our first location has inspired us to expand our reach, with plans to open additional experience centers across India. Each center will serve as a hub for innovation, showcasing the best in home entertainment and providing a unique environment for customers to experience the future of audio visual technology.

LED Displays:

LED (Light Emitting Diode) Technology: LEDs are used to light up the screen, providing high brightness and energy efficiency. They come in different forms like edge-lit LEDs, backlit LEDs, and full-array LEDs, each affecting picture quality and price.

Features:

Resolution: Options range from Full HD to 4K and even 8K.

HDR (High Dynamic Range): For better contrast and color accuracy.

Smart Features: Built-in apps and internet connectivity for streaming.

Advantages of LED Displays in Home Theaters:

Picture Quality: Sharp, vibrant images with great contrast ratios.

Energy Efficiency: Consumes less power compared to older LCD models.

Lifespan: LEDs have a longer lifespan, ensuring longevity of the display.

Versatility: Available in various sizes, making them suitable for any room.
