## Investor's Insights – October' 2024, 17<sup>th</sup> Edition

Dear Valued Shareholders,

*Welcome to the inaugural issue of our monthly newsletter, "Investor Insights," from Titan Intech Limited. Delivered directly to your inbox, this digest will keep you updated on the latest developments and trends within our innovative technology landscape.*

### October 2024 Highlights:

#### Establishing a New Facility for the EMS & manufacturing of LED Display units

##### **Products out of our New Facility for Manufacturing LED-LCD Display Units, including mini LED back lighting for LCD Displays.**

We are excited to announce the introduction of our high-end LED-LCD display units under the brand name "titanview." As mentioned in our September newsletter, our primary focus is on supplying these units to railways, defence, and other government organizations. The "titanview" LED-LCD displays offer larger, brighter, and more vibrant images that must be experienced to be believed.

The "titanview" LED-LCD display units provide exceptional image quality that captivates audiences even in challenging environments. Featuring two-step in-depth calibration, enhanced image processing, and an industry-leading contrast ratio, these displays ensure accurate and consistent color quality at high rates. They are also designed to minimize light interference, delivering bright images under any conditions.

Our Company has made an application for registration of our brand "**titanview**" with Trade Mark Registry.

#### Our Currently Manufactured Products includes:

- 1) Smart LCD, LED TVs and all types screens compatible to computers & laptops.
- 2) Wide range of Micro LED outdoor display/indoor displays ranging between 135 to 200 inches.
- 3) Window displays/ PIS, Mirror displays, Fitness display.
- 4) Interactive Flat panel displays with Smooth & natural writing experience designed for educational and institutional segment.
- 5) Customised Products including Micro LED high end Displays solutions and more....

"**titanview**", inspires the world and shapes the future with transformative ideas and technologies. The company is going to redefine the worlds of TVs, tablets, and LED solutions.

### **Acquisition of Kakatiya Energy Systems Private Limited:**

We are pleased to announce that Titan Intech has entered into a strategic Memorandum of Understanding (MOU) with Kakatiya Energy Systems Private Limited (KES) to acquire a 26% stake in the company.

KES has secured an order valued at ₹21 crores from Energy Efficiency Services Limited (EESL) for the design, manufacturing, supply, testing, and commissioning of Central Control and Monitoring Systems (CCMS). This contract includes a comprehensive warranty of up to seven years on-site, covering spare parts and maintenance across India.

This partnership will significantly enhance our capabilities to execute the ₹450 crores order recently awarded by the Government of Uttar Pradesh for implementing weather monitoring systems. KES brings patented sensing and switching technology, enabling efficient remote control of electrical and electronic devices—an essential component for advanced weather network systems.

Additionally, KES's expertise in designing, developing, and manufacturing electronic devices will give Titan Intech the technological advantage needed for precision and efficiency in the UP project. Their extensive experience in IoT and automation solutions will improve the project's performance by providing real-time, accurate data, which is vital for effective weather monitoring.

This collaboration represents a major advancement for Titan Intech as we expand our presence in the Central Control and Monitoring System (CCMS) sector.

We appreciate your continued support and trust in Titan Intech Limited. This marks the 17th edition of our monthly newsletter, and we remain committed to keeping you informed about all developments within our company.

With Best Regards,

Sd/-
